To Whom It May Concern,

**Re: Dioxide Pacific Pty Ltd**

Dioxide Pacific has provided three ozone systems to Full View Plastics over the past three years with capacities of 3 m<sup>3</sup>/hr, 9 m<sup>3</sup>/hr and 30 m<sup>3</sup>/hr.

In each case, the systems were fully designed, built and installed by Dioxide Pacific and have achieved the treatment capacity and disinfection criteria required for ozone bottled water systems with very good ozone residual control.

Dioxide Pacific has excellent project management systems in place which enabled the projects to be installed quickly, on time and with little interruption to production.

We have a preventative maintenance contract in place for all systems with Dioxide Pacific and this keeps the systems operating reliably, which is critical for our business.

We have no hesitation in recommending Dioxide Pacific for ozone systems.

Yours sincerely,

**Max Thomas**
